

# Certificate

*On Carbon Neutrality of the Werbeagentur Eberle und PR-Agentur ecomBETZ in the year 2011*

*This document serves as a proof that*

*80 tons of CO<sub>2</sub>/carbon credits*

*were purchased in order to compensate for the Greenhouse Gas Emissions caused by the its operations in 2010.*

*The offsetting was done with Carbon Credits generated through Soil & More's composting projects in developing countries.*

*By compensating the GHG emissions with carbon credits generated from such composting projects, you have not only actively reacted to the threat of climate change, but also helped to enhance soil fertility and economic as well as social development of the countries where our compost is being produced.*

*Thank you for supporting our work!*

*With our sincere respect.*

A handwritten signature in blue ink, appearing to read "T. Bandel".

**Tobias Bandel (Managing Partner)**  
Driebergen; December 9, 2011

*Soil & More's carbon credits are certified by TÜV-Nord Cert GmbH – an independent party accredited by the UNFCCC to carry out certifications under the scheme of the CDM. The Carbon Credits used for offsetting are registered under the name of Soil & More International in MarkIt's registry. Credits used for offsetting are retired from the registry and cannot be reused for other purposes.*
